NOTICE OF PROPOSED RULE MAKING

Adopted: August 23, 2012

Released: August 24, 2012

Comment Date: October 15, 2012

Reply Date: October 30, 2012

By the Assistant Chief, Audio Division, Media Bureau:

1. The Audio Division has before it a Petition for Rule Making filed by Jesus B. Salazar (“Petitioner”), permittee of KPMJ, Matador, Texas. Petitioner proposes to amend the FM Table of Allotments, Section 73.202(b) of the Commission’s rules, by substituting Channel 227A for vacant Channel 249A at Roaring Springs, Texas, and substituting Channel 249C3 for vacant Channel 276C3 at Roaring Springs, Texas. This proposal is part of a contingently filed “hybrid” application and rule making petition.

2. **Background.** In his contingent application, Petitioner proposes that FM Station KPMJ be upgraded to operate on FM Channel 276C3 rather than FM Channel 227A.¹ Correspondingly, Petitioner proposes to amend the FM Table of Allotments by substituting Channel 227A for vacant Channel 249A, at Roaring Springs, Texas, and substituting Channel 249C3 for vacant Channel 276C3 at Roaring Springs, Texas. Petitioner asserts that, because the initial auction allotment for Matador was for Channel 227C3, the Matador channel change can be processed as a channel substitution pursuant to Section 73.3573(a)(1)(iv) of the Commission’s rules.² Petition states that the proposal would serve the public interest because it would result in a potential net gain in population served by the Roaring Spring allotments, and also would increase the number of persons served by new FM Channel KPMJ.

3. **Discussion.** The proposed changes in the FM Table of Allotments warrant consideration because they comply with our technical requirements and could serve the public interest. These channel substitutions will allow KPMJ to increase service by implementing an upgrade that would increase the number of the station’s potential listeners, and could also produce a net gain in the population served by the Roaring Spring allotments. Accordingly, we seek comment on the proposed amendment of the FM Table of Allotments, 47 C.F.R. Section

¹ See File No. BMPH-20120523AAB. The proposed new reference coordinates for Channel 276C3 at Matador, Texas, are: 33-59-57 NL and 100-49-34 WL, at a site 1.5 km (0.92 miles) south of Matador.

² See 47 C.F.R. § 73.3573(a)(1)(iv).

7. The Commission has determined that the relevant provisions of the Regulatory Flexibility Act of 1980 do not apply to a rule making proceeding to amend the FM Table of Allotments, Section 73.202(b) of the Commission's Rules.⁴ This document does not contain proposed information collection requirements subject to the Paperwork Reduction Act of 1995, Public Law 104-13. In addition, therefore, it does not contain any proposed information collection burden "for small business concerns with fewer than 25 employees," pursuant to the Small Business Paperwork Relief Act of 2002, Public Law 107-198.⁵

For purposes of these restricted notice and comment rule making proceedings, members of the public are advised that no *ex parte* presentations are permitted from the time the Commission adopts a *Notice of Proposed Rule Making* until the proceeding has been decided and such decision in the applicable docket is no longer subject to reconsideration by the Commission or review by any court. An *ex parte* presentation is not prohibited if specifically requested by the Commission or staff for the clarification or adduction of evidence or resolution of issues in the proceeding. However, any new written information elicited from such a request or any summary of any new information shall be served by the person making the presentation upon the other parties to the proceeding in the particular docket unless the Commission specifically waives this service requirement. Any comment which has not been served on the Petitioner constitutes an *ex parte* presentation and shall not be considered in the proceeding.
